CATS EDITION

*Special*  
**ZOO**

**CATS EDITION**

# Concept

Special Zoo is an NFT game franchise created from 2022. Designed as a physical card game and extended to digital multiplatforms (Mobile, PC, Android, IOS and others...).

The first edition of the franchise and soon to be released is the Cats Edition.

With hybrid and thought-provoking gameplay, it was developed to captivate the most diverse players, with RPG exploration modes and card game-style battles in a single game.

# Visual

Visually, Special Zoo – Cats Edition was conceived with a retro aesthetic, referring to 16-bit console games, with the intention of conquering the player who lived these golden moments of the video game, the potential consumer of NFT games today.

In addition to the nostalgia factor, the retro style game continues to be a successful formula, with new productions and high adherence among Gamers.

The exploration mode was based on successful titles like Legend of Zelda and Pokémon (in their more traditional versions). The battle mode was inspired by card games like Magic – the Gathering and Yugi-Oh, traditional hit titles among fans of the genre.

# Gameplay

The Player starts the game in exploration mode, where he has access to the game's online world. In this world, the player will be able to interact with the scenario, talk and negotiate with other players, access battle stadiums, in addition to accessing item stores and NFTS.

Only by purchasing a Deck (deck of cards) or minimum required set of NFTS is it possible to duel or participate in certain game modes.

Cards are purchased from NFT shops or stadiums.

# Exploration Mode

2000

"Feet, what do I need you for when I have wings to fly?"

"The true sign of intelligence is not knowledge but imagination."

2000

# Plot

The Special Zoo franchise draws on the multiverse premise to introduce its own universes to the player.

Scientists such as Stephen Hawking and James Hartle have already addressed the multiverses in Superstring theory, inspiring major comic book publishers to introduce these ideas into their fantastical universes. Today a widely spread concept in Literature, Film, TV and Games.

And it is lost in that universal myriad that exists on Earth C4T, where all intelligent beings are felines. Home of the Cats Edition version.

# Characters

From the bakery clerk to the bus driver, from Madonna to Elon Musk, at Terra C4T everyone has their own version of the cat, including you, the reader.

Playable characters are presented as alternate versions of personalities relevant to human history, divided by class and nationality.

Meet some of the hundreds of characters featured in Special Zoo – Cats Edition. Our celebrated warriors and main stars.

# Character Class

In order to generate dynamics and balance in confrontations, Special Zoo – Cats Edition has 5 character classes:

- **Sport** – Characters with physical fitness, focus on strength and agility.
- **Artist** – They have abilities aimed at manipulating reality.
- **Scientist** – They can interfere in Space and Time.
- **Religious** – Have regenerative abilities.
- **Political** – Can interfere with battle dynamics.

# Character Class

# NFTS

**Special Zoo – Cats Edition NFTS** are acquired in **3** ways:

- 1. NFT Store:** Here you acquire NFT under the conditions:
  - **Fixed price** - Get your card with a fixed price according to rarity;
  - **Random Booster** – Buy a pack of up to **3 random NTF**. If you're lucky you can get rare or legendary cats.
- 2. Gym** – Here you get NFTS according to your tournament performance;
- 3. Especial events** – Acquire **NFT** in **quests** or **tasks** announced by the game.

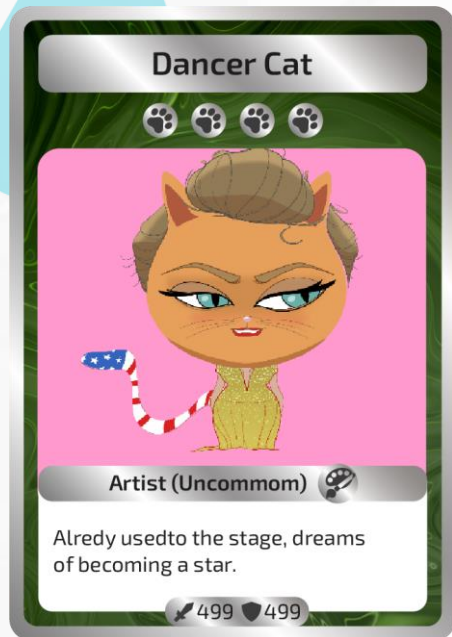

# Card Rarities

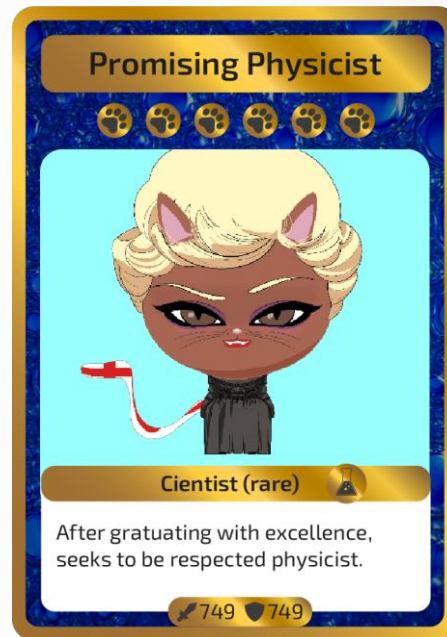

There are a total of **4 possible** rarities for **NFT**, separated by **purity level**, which are:

**COMUM**  
Up to **40%** purity

**INCOMUM**  
Up to **60%** purity

**RARE**  
Up to **90%** purity

**LEGENDARY**  
**100%** purity

# Conclusion

This is the basics to know for a good start in **Special Zoo – Cats Edition**.

We count on your presence for many future adventures on **Earth C4T**.

# Thanks!
